See category tab for details.

Bid Description

Server Products CP model pumps dispense directly from a corresponding size steam table pan, 6" (15.2 cm) deep. Each is constructed with a cast stainless steel valve body featuring captured balls to prevent loss. A maximum portion of 1-ounce (30 mL) per stroke reduces in 1/8 ounce (3.7 mL) increments with supplied gauging collars. Pump knob can be colored and engraved to label contents; black is standard.

Dispense from a 1/6-size steam table pan, 6" (15.2 cm) deep with CP-1/6, 1/4-size pan with CP-1/4, 1/3-size pan with CP-1/3, and 1/2-size long pan (pump on each end) with CP-1/2 DL. Steam table pans sold separately.

Tall models have a 3" (7.6 cm) taller discharge tube to fit deeper refrigeration equipment. The extra depth recesses the top of the pan 3" (7.6 cm) below the top lip of the refrigeration.

Standard Features

- Stainless steel construction
- 1 oz (30 mL) maximum portion, now adjustable in 1/8 oz (3.7 mL) increments — allows for Portion Optimization™
- Colored, engraved knob is available upon request (contact customer service for options)

Accessory Items

- ☐ 1/6-size steam table pan, 6" (15.2 cm) deep 90089
- ☐ 1/4-size steam table pan, 6" (15.2 cm) deep 90086
- ☐ 1/3-size steam table pan, 6" (15.2 cm) deep 90083

Two Year Warranty

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For our complete warranty statement, please see our website.

CAD Library

Individual CAD images are available free of charge from our website. Our complete collection of CAD files, along with more than 100 other manufacturers, can be purchased through Kochman Consultants, Ltd. at kclcad.com.
