## Bid Description

Server Products BP style pumps dispense directly from popular food containers. A smart alternative to disposable pumps — BP pumps combine a stylish and durable stainless steel head assembly with a retooled plastic cylinder. BP pumps are certified for clean-in-place or can be fully disassembled for cleaning.

Dispense directly from a 38 mm jar opening with BP-1 88000. Jar can be as short as 7" (17.8 cm).

For a Heinz® Pour Store & Pump Jug use BP-1 88010. Its black plastic lid threads onto the jug.

Dispensing from a salad crock can be done with BP-1 CROCK 88020. Its clear plastic lid fits a standard 2.7 quart (2.6 L) salad crock.

BP-1 models have a maximum portion of 1 ounce (30 mL) per stroke and can be reduced in 1/8 ounce (3.7 mL) increments with supplied gauging collars.

Pump from standard syrup bottles such as Monin and Torani with BP style fractional pumps (1/4 & 1/2) — caps included. BP-1/4 and 1/2 have a 1/4 oz (7 mL) or 1/2 oz (14 mL) stroke respectively.

## Standard Features

- Stainless steel pump with plastic cylinder has few parts
- BP-1 has a 1 oz (30 mL) stroke with portion control
- Black knob can be engraved to identify contents (available upon request, contact our customer service department)
- Pump breaks down completely for cleaning or can be cleaned in place
- NSF Listed

## Two Year Warranty

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For our complete warranty statement, see our website or contact us.
