FOOD WARMERS: FULL-SIZE

Model 1001 Full-Size Food Warmers

DESCRIPTION

Vollrath Model 1001 food warmers are designed to attractively display and maintain the serving temperature of your prepared foods with less energy than a traditional warmer.

Model 1001 Warmers are designed to hold heated prepared foods at temperatures above the HACCP “danger zone” of 140° F (60° C). The performance standard is measured using the NSF mixture preheated to 165° F (73.9° C). The electric unit will hold the temperature of this product above 150° F (65.6° C). The temperature will be maintained best when the food product and inset are used with a standard inset cover, the proper water level is maintained in the well, and the food product is stirred regularly.

MODELS: 71001 120V AC, 700W
72101 120V AC, 700W
72605 120V AC, 700W
72002 120V AC, 700W (special order only)
72003 120V AC, 700W (special order only)
72004 120V AC, 700W (special order only)

FEATURES

- ☐ Self-insulating thermoset well made from polyester and glass fibers cannot rust, pit or crack.
- ☐ Water deposits easily wipe off.
- ☐ Exclusive dome heating element with non-stick coating makes for easy removal of mineral deposits.
- ☐ Exterior surfaces are cool to the touch.
- ☐ Thermostatic control for precise temperature control.
- ☐ Optional color-coordinated models.
- ☐ Wide, no-drip lip.
- ☐ Bottom-mounted power cord stays out of the way.

DIMENSIONS AND RATINGS

Dimensions (Diameter x H)

Item	Description	Inches	Centimeters	Voltage*	Watts	Amps	Case Lot
71001 1001	Full-size warmer only	13¾ x 21¾ x 9	(33 x 55 x 23)	120V AC	700	5.8	1
72101 1001	Package with warmer, full-size 2½" (65 mm) pan, polished dome cover	13¾ x 21¾ x 9	(33 x 55 x 23)	120V AC	700	5.8	1
72605 1001	Soup package with warmer, adaptor plate, two each of 7-quart (6.6 L) insets, hinged covers, 4-ounce (118.3 mm) ladles	13¾ x 21¾ x 9	(33 x 55 x 23)	120V AC	700	5.8	1
72003 1001	Warmer with black exterior	13¾ x 21¾ x 9	(33 x 55 x 23)	120V AC	700	5.8	1

Receptacles

* Contact your Vollrath representative for models rated for other voltages (For Export Only).

Results of Independent Testing:

Units were filled with water per care/use instructions. Units were preheated to operating temperature. 4" (100 cm) food pan containing NSF text mixture at 160° F (71.1° C) was inserted. All tests were made with the cover off. Temperature was monitored continuously for four hours.

- Model 1001 with 700 watt dome element maintained temperature of the food product above the temperature 160° F (71.1° C) for the duration of the test.
- ▲ Competitive all-stainless unit (#1) with 1200W tubular element under the well. Temperature dropped below 140° F (60° C) in eight minutes. Continued testing saw temperature rise above 140° F (60° C).
- Competitive all-stainless unit (#2) with thermostatic control and 1500W tubular element under the well. Temperature dropped below 140° F (60° C) safety zone within the first hour and did not recover. Test was aborted after 2 hours.
