Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For a copy of our complete warranty statement, see our Website or contact us.

Bid Description

Redesigned with contemporary styling, Supreme™ cheese servers feature rounded corners and are constructed of brushed (#4) stainless steel bodies with black thermoset plastic bottom and top. Each dispense directly from a 3-quart (2.8 L) stainless steel jar. Pumps feature a cast valve body and welded construction. Maximum stroke yields 1-ounce (30 mL). Gauging collars are supplied to reduce the yield in 1/4-ounce (7 mL) increments.

An adjustable, precalibrated thermostat controls the heating element. Each feature a "Power On" light and water fill line. To include a magnetic merchandising sign, add the suffix CHSE for cheese.

The FSPW-SS is designed with pump and spout warmer opposite the instrument panel side. FSPWI-SS has spout warmer on the instrument panel side. Each has 515 watts.

FS-SS is without pump—includes a 1-ounce (30-mL) ladle and has 500 watts.

Standard Features

Pump design prevents loss of valve balls

Maximum pump stroke yields 1-ounce (30 mL) with portion control in 1/4-ounce (7 mL) increments

Adjustable, precalibrated thermostat for accurate heat control

Temperature marks on knob with protective knob guard

Water fill line eliminates overflow accidents

Accepts magnetic sign for versatile merchandising

Two cleaning brushes included for pump maintenance

Cheese Server Accessories

- ☐ 3-quart (2.8 L) Stainless Steel Jar #94009
- ☐ Stainless Steel Jar Storage Lid #94008
- ☐ Magnetic Sign, Cheese Nachos #86787
- ☐ 1-ounce (30 mL) 10" (25.4 cm) Ladle #82561
