

NEW!!

COLD / FROZEN BEVERAGE DISPENSERS

Made In Italy

Product Features:

- Our Multi-purpose “Cold/Frozen” Beverage Dispensers are perfect for Slushies, Sorbet, Smoothies, Sangria, Iced Coffee/Tea, Lemonade, Italian Granitas, Frozen Margaritas, Coladas, Daiquiris, Yogurts, Shakes & much more.
- Our patented design all but eliminates “preventative maintenance” versus competitive products where preventative maintenance is costly & mandatory annually.
- The drive shaft of each unit is manufactured with patented “Seal-less” operation, which makes it uniquely the most “hygienic & safest” product of it’s kind on the market.
- Our equipment does NOT require periodic lubrication or seal replacements.
- The “simplest & easiest” machines to clean & maintain on the market.
- User-friendly, easy-to-read and programmable (AFCM3/AFCM2 models exclusively) electronic controls make operation a snap.
- Manufactured to comply with HACCP Standards.
- Innovative Design makes each unit a powerful merchandiser & profit center for any business.
- A “Manual & Electronic” Locking System make our products a perfect fit for self-service locations.
- A powerful & energy efficient Refrigeration System makes our preparation process the fastest on the market.
- One of kind “Double Blade” (auger) Mixing System & On-Board “Viscosity Control” Monitoring System.

COLD / FROZEN BEVERAGE DISPENSERS

NEW!!

Made In Italy

ALFA carries a complete line of Cold / Frozen Beverage Dispenser's, designed to meet your customer's foodservice needs & applications. We carry dispensers that simply refrigerate & dispense "cold" fluids and a variety of dispensers that perform a wider variety of functions depending on consumer, business & marketing needs. Our unique, exclusive & patented design results in a "multi-purpose usage" **Cold** or **Frozen** Beverage Dispenser suitable for a variety of preparations, in a number of different temperatures & (9) different viscosity settings. Choose to serve "Cold" Lemonade/Ice Tea/ Coffee or program your machine to serve "**Frozen**" Margaritas, Daiquiris, Pina Coladas, Mud Slides, Lemonade (with or without alcohol) or Sorbet in approximately 60-90 minutes, with a touch of a button. The diversity of our equipment also allows end-users to serve

Milk-based products like Yogurt, Shakes & Smoothies. In multiple bowl units, you have the convenience of pouring cold beverages from one bowl, while serving frozen products from a 2nd or 3rd bowl simultaneously. If your customers require machines that can handle higher ambient temperatures based on their geography, we have dispensers which have been manufactured accordingly to optimally perform in every climate. Select from a number of different bowl capacities, ranging from as little as 1.6 gallons for our smallest machine (ABB1), up to as much as 9.6 gallons across a number of different models & styles. Why buy a "cold" drink dispenser that can only chill your beverages when you can invest in a scalable & diverse "**Cold / Frozen**" Beverage Dispenser that can produce a broader range of products effortlessly, efficiently, expeditiously & economically.

Warranty: 5 years Condenser, 3 years Electronics, 2 years Parts, 90 days Labor with a National Service Plan/Network

Note: We do not carry a line of beverage mixes/syrups for our beverage dispensing equipment. Please speak to one of our professional Customer Service Representatives and we will be happy to refer you to a number of preapproved vendors that we can recommend to you and your customers.
