ES700

Juice Extractors

Genuine juice

Thanks to the "Pulp Retainer" – a stroke of genius by Ceado – the juice obtained is clearer and brighter, thus considerably enhancing the taste.

Il geniale anello **Pulp Retainer**, inventato da Ceado, trattiene la polpa di scarto rendendo più limpido il succo, migliorandone sensibilmente il gusto.

Wash & go!

Washing is quick and easy, as the basket with magnetic catch and parts in contact with food are simple to remove and replace, with no tool required.

Ad ogni lavaggio, il cestello ad aggancio magnetico e tutti i componenti in contatto con alimenti, sono smontabili senza attrezzi e facilmente lavabili.

Juice Fit

The grating disc and mesh filter are designed to extract the fruit juices gently, guaranteeing maximum performance also with leafy vegetables.

Il disco dentato e la rete del filtro sono stati studiati per centrifugare la frutta in maniera delicata, garantendo la massima resa anche dall'estrazione di succo da vegetali in foglia.

Work better

Incredibly quiet, the ES700 model ensures a pleasant environment for both customers and staff.

L'incredibile silenziosità di ES700 garantisce un ambiente gradevole a clienti e operatori.
