powered by **HALLDE**

a New 'Turn' on Food Processing

High-capacity food prep—especially when optimum food quality matters—is not about horsepower or speed.

It's about torque.

And only one name has that knowledge built into its line of commercial food processors to deliver a performance and ROI unmatched in the industry.

Higher Food Quality

Unlike other commercial processors that over-rely on speed to maximize throughput, Nemco places an emphasis on torque to maintain cutting strength, without "attacking" and tearing the food. You still get the high-capacity throughput. But you also get a cleaner, higher integrity cut and finer blending textures for optimum food flavor, aroma and appearance.

More Cutting Versatility

Higher torque means better acceleration and power. Starting from zero, Nemco's blades hit top speed faster and maintain that speed regardless of the load—whether cutting a soft tomato or a stubborn cheese. You get more product uniformity, across a wider range of processing options.

Longer Performance Life

Optimum speed-to-torque doesn't just relieve stress on the food. It relieves stress on the blades. In combination with a stout, robust design, including a cast-aluminum cutting chamber, internal metal-to-metal contact points, commercial-grade ABS plastic and other features spec'd for durability, you get a processor that lasts at least twice as long as others on the market.

Oh, And, Super-Easy Operation

Like you'd expect from the leader in countertop food prep, every Nemco processor is ergonomically designed with smart safety features for simple operation. Plus, they have easy-to-disassemble, dishwasher-safe components and they're all lightweight and compact with handles for easy mobility and storage.

Multifunction Vegetable-Prep Machine

Slice, dice, shred, grate, crinkle-cut or julienne just about any produce or cheese item you can imagine in volumes that will improve your kitchen efficiency like you've never seen. Smart speed-to-torque engineering works fast while minimizing stress on both the food and the blades for optimum food quality and longer service life.

Wide opening and blade diameter optimize feed capacity

Processes 5 lbs/minute

Changing out the cutting tool is super easy—even for rookies

Suggested Uses

Ideal for restaurant & hospitality operations, as well as healthcare and school institutions, looking to increase food-prep volume on anything from fruits and veggies to cheese, dry bread, nuts and more.

General Specifications

Model	Description
RG-50	Vegetable-Prep Machine, Multifunction w/Dicing

Dimensions

Equipment (w x d x h)	11.2" x 13.8" x 18.3"
Shipping Carton (l x d x h)	19" x 12" x 18.5"
Equipment Weight	20 lbs
Shipping Weight	24 lbs

Electrical Specs: 120V, Single-Phase, 60 Hz
Motor: 1kW, One-Speed (500 RPM)

Vertical Cutter/Blender

Chop, grind, mix, mince, puree or blend an endless array of proteins, produce and more. Two speeds, with the right torque application ensure crisp, clean cuts; smooth, uniform textures; and perfectly harmonized blends. A patented three-scraper system clears food away from the lid and bowl and forces it back into the blades to prevent "chasing" that generates friction and unwanted preheat.

Three-scraper system with handle works with a simple rocking motion

Accepts up to 3 quarts for a final 1½-quart yield

Two speeds with a pulse function apply ideal RPM for cutting or blending

Suggested Uses

Perfect for restaurants, cafés, bars or any operation that serves specialty drinks or house-made nut butters, soups, sauces, dressings or pâtés. Especially ideal for healthcare facilities with patients who can't chew food.

General Specifications

Model	Description
VCB-32	Vertical Cutter/Blender

Dimensions

Equipment (w x d x h)	11.2" x 13.2" x 17.3"
Shipping Carton (l x d x h)	19" x 12" x 18.5"
Equipment Weight	19 lbs
Shipping Weight	24 lbs

Electrical Specs: 120V, Single-Phase, 60 Hz
Motor: 1kW, Two-Speed (1,450 or 2,650 RPM)

Combi Cutter

This is your most versatile food-processing tool yet, equipped with four speeds and the functionality to combine all the vegetable-prep and blending capabilities of the above machines into one dynamic unit.

For blending, accepts up to 3 quarts for a final 1½-quart yield

For vegetable prep, processes 5 lbs/minute

Speeds change automatically, per the desired function, with no manual adjustments needed—so, the perfect result is guaranteed, even in the hands of your most inexperienced staff

Suggested Uses

Any operation that wants to deploy a full arsenal of high-capacity food processing capabilities will want this amazing utility machine. Run loads of produce, cheeses and more through a wide range of cut variations. Or, grind and puree everything from meats and fish to veggies and nuts. Or, blend nearly any set of ingredients into a perfect house recipe.

For RG and CC models, use this cutting-tool selection guide to identify the cut type and thickness variations you want.

Slicers

Slices firm and soft vegetables, fruits, mushrooms etc. Dices when combined with a suitable dicing grid.

1/32" 5/64" 5/32" 7/32" 3/8"

Fine Cut Slicers

Slices firm and soft vegetables, fruits, mushrooms etc. Dices when combined with a suitable dicing grid.

5/8"

Soft Slicers

Slices soft vegetables, fruits, mushrooms etc. Preferably used when dicing soft products, in combination with a suitable dicing grid.

5/16" 3/8" 15/32" 5/8"

Crimping Slicers

Cut decorative rippled slices of beetroot, cucumber, carrots, etc.

5/32"

Julienne Cutters

Cut julienne of firm products for soups, salads, stews, decorations etc. Suitable to cut slightly curved French fries.

5/64" 5/32" 7/32"

Graters/Shredders

Grates carrots and cabbage for raw salads. Grates nuts, almonds and dry bread. Grater 7/32" or 5/16" is commonly used for grating cheese for pizza and when shredding cabbage.

5/64" 5/32" 7/32" 5/16"

Dicing Grids

Cut dices in combination with a suitable type of slicer. Dice both hard and soft vegetables, fruits etc.

5/16" 3/8" 15/32" Low 5/8" Low
